--	---

Description

The sword consists of an axe-like part made of iron and a wooden hilt. This particular sword or machete is decorated with tufts of hair and used mostly for ritual purposes. Daos without ornamentation are used as a tool or weapon, for example in headhunting. They are still commonly used by all Naga groups today.

Basic data

Material/Technique:	Metal; Wood; hair
Measurements:	Object: 70 x 15 x 7 cm
